Please list any paranormal training you may have:

Most of GCOM's investigations are done in the evenings, and take around 2 to 3 hours sometimes longer. Would this be a problem for you? We ask that you be available for at least half of our investigations.

Would you have any problems with transportation? Most of our investigations are less than 50 miles from the tri county area, but some may be further.

If GCOM was contacted to do an out of state investigation do you think given enough advanced notice you would be available?

Why do you wish to join GCOM?

In closing please tell us anything else you would like us to know that you would feel would be beneficial to us in making our decision to accept you into GCOM.
